- Managers are selected when the standings for each division are finalized at the end of the 3rd week in January:

- Hosting community has discretion on divisional play, starting and ending time, etc.
- Sun team is home, Fun team are visitors

Player Selection Process:

- Players are selected by their community for each participating division.
- The number of players will be determined by the number of teams in each division.
- The divisional representative will determine that number and where odd number team players will play or be split.
- The manager of each team will send the names of each player, age, number, positions played and home town to the manager of the Sun or Fun team depending on the standing listed above and to the hosting community.

Note: Every players selected to play as an all-star in each division “must” bat and should play defensively if possible.

This is a guideline that can be used by hosting communities and has been the format used by many hosting communities.

To have this be successful for a hosting community and the league all the participating communities, managers and players need to follow this guideline or that put forth by the hosting community for this game to be meaningful and a success.
